

## EVERYTHING IS FREQUENCY!

Also referred to as VIBRATION, everything on earth, whether living or perceived as not living (like a rock) can be reduced to its vibrational frequency.

**Introducing new technology called HEALY.** Healy is a **microcurrent** medical device that has been cleared by the U.S. Food and Drug Administration for relief of acute, chronic, and arthritis pain as well as muscle soreness due to overexertion. Healy also has non-medical **Resonance** applications that use individualized frequencies to help balance your mind and body, and relieve stress.

Synergetics Health & Wellness now has 'packages' available through our office of this amazing, painless technology that is able to scan and/or capture frequencies -- whether they be for people, animals, buildings and more -- to determine the vibrational imbalances that exist in those structures. Then we work to bring those structures into balance to improve the mental, physical, emotional, bioenergetic, sleep, and protection functions. We truly believe this type of health approach is one manifestation of the **New Wave** of the future.

**HEALY** has the capacity to be used with electrodes on an individual, both in person in our office or remotely from any distance, by supplying powerful **micro-currents**. We are utilizing the combination of in-person and remote options to improve client outcomes for a period of time agreed to in a package deal format. We also have options available for current clients, their friends and family separate from in-office consultations. We are finding that people who are reluctant to come in the office for an appointment are quite happy taking a more 'remote'

approach. The remote approach, of course, works best augmented with healthier diet, better hydration, and targeted priority nutritional supplements which can also be identified through the same technology.

**Micro-currentcy** use is the 'in-person' form of Healy application. **Micro-currentcies** benefit the body and mind in many ways due to the stimulation of ATP (the energy powerhouses) within cellular structures. It basically gives the cells a 'new lease on life,' manifesting in improved energy, more clarity in mental functions, reduced stress and pain wherever needed. This application is augmented by the **Resonance** frequencies, which are the remote application of the physical **micro-currentcy**. In turn, this creates a healthy balance via vibration which matches the needs of the cell, the tissue, the pain, and the concerns of the individual. We can also support the enhancement of learning, the release of old fears and/or anxieties and patterns that no longer serve us. We can strengthen our capacities in our workplaces, our relationships, and our home lives.

We are utilizing the professional version which allows for both approaches. Home models are available for your personal and/or in-home use at various price points. Please use my link below to explore those options.

We look forward to hearing from you whenever you are interested in this approach, whether to improve your in-office outcomes, to work remotely when you are unable to come in for appointments, or for others who have never been in-office clients, yet have an interest in this new technology to improve their lives or that of their family members.
